## *Invitation*

## DIAMOND WEDDING CELEBRATION, JUNE 17<sup>TH</sup> 2018

### *SOME ADDITIONAL INFORMATION*

**Invitation.** An invitation is enclosed. Patricia and Peter do hope you will be able to come.

**The venue:** The Upper House was built in 1845 for Josiah Wedgwood's grandson, Francis. The house has been lovingly converted into a luxury character hotel.

The hotel has 24 individually decorated *en-suite* bedrooms and is set in 10 acres of woodlands and beautifully landscaped gardens. It is a short walk from the National Trust site of Downs Bank.

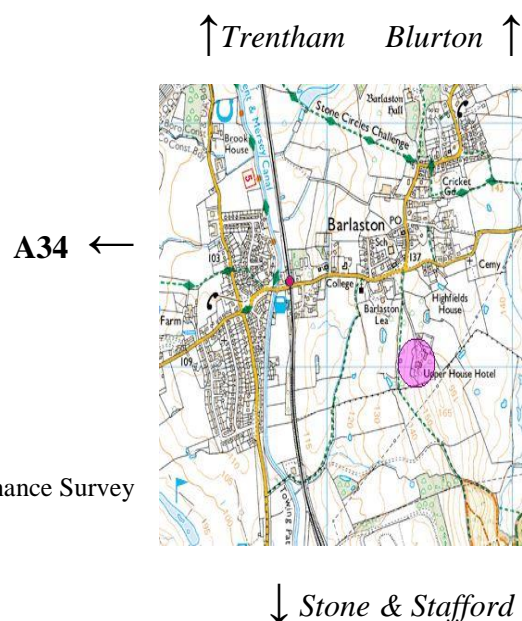

**Staying Overnight.** The hotel has a number of bedrooms for guests attending functions. Book directly with the Upper House and do mention that it is for our diamond wedding celebration. (01782 373 790 [enquiries@theupperhouse.com](mailto:enquiries@theupperhouse.com))

**Menus:** We shall send a menu and form about a month before the celebration so you can choose what you would like to eat.

**Entertainment** provided by *Will Be Juggling*

**Getting There.** The hotel is situated about five miles south of Stoke-on-Trent, about a mile east of the A34 to Stafford. Come off the M6 motorway at Junction 15, take the A500 and then use the first junction to access the southbound A34. The nearest railway station is Stoke on Trent.

The Postcode is **ST12 9AE**. The hotel is denoted by a pink circle on the map.

We are looking forward to seeing you on the 17th June.

**Diamond Wedding Celebration, June 2018*****Welcome by Peter***

Welcome to you all.

Third Celebration; greetings from German friends and also from Pat's U3A fellow students.

Some regrets and some calamitous news.

Bridesmaid, Enid, infirm; Best man, Richard whom it is impossible to get north of Watford.

Brother Frank; 97. Kath Glover ~92

Sorry that Charlie couldn't make it. UBC, first class in Geological Engineering from UBC Started a job in Calgary

Calamity: grandson Will broke his ankle on Thursday. Effects on today's programme

Long distance guests:

Ian and Richard opera friends

Melanie, our closest friend: she is certain of a welcome from so many Keele friends here.

Paul & Rosalind arrived back from Namibia yesterday;

Michael and Nicola are here from Copenhagen, but were in Moscow a week or so ago

Stephen & Conny and their family are here from Germany, with Stephen back just from China on Wednesday and Conny from Thailand a week or so ago.

**Royal Wedding**

Bishop Curry: Two young people fall in love and we all turn up to celebrate.

Hardly the same after 60 years, but happily, like us, most will go anywhere for a meal!

But there is a loving reason for turning up: Grandson James and his girlfriend, MJ, have just got engaged and on behalf of everyone, we wish them all the best for the future.

***Reply to Stephen and Michael by Peter & Patricia***

***A shorter version was actually given at the time***

***Peter***

Thanks again to everyone here for coming. Donations to Medecins Sans Frontiere.

Suggested by a kind colleague that I try to reveal the dangerous marriage pitfalls; only think of one: Peter Sallis, Last of the Summer Wine. Just noticed all the girls about when he found himself married!

So you might as well make the best of it. Patricia is tolerant, kindly and loving; lucky she always sees the best in things and makes the best of a bad job!

***Patricia.*** *Who does the talking; who the work! The inauspicious start with the engagement ring.*

***Peter***

The purpose: to acknowledge the support and kindness of people on whom any happy marriage depends and the enormous good fortune we have enjoyed.

- a. Our family; the three boys, their wives and our seven grandchildren.

The boys seem successful and happy married.

Astonishing girls brought home by Paul & Stephen until their future Rosalind and Conny sorted them out.

Nicky was the only one with Michael, but she and and now keep some less desirable company – Kremlin website in the company of Vladimir Putin. Wiping the doorknobs more carefully !!

- b.

b. Our departmental colleagues in Chemistry: Colin Mortimer, David Cohen, Melanie Thorne and David Morgan and also Gurnos Jones (wife Pat)

c. Only Postgraduate Warden; Our Wardenial Colleagues: Melanie Thorne (again), Eddie Slade and also Iollo Roberts (wife Menai)

And also Audrey Newsome, and Arthur Tough who provided strong support for some of the work required.

KRA/KPA: Colin James

d. Treated generously by Keele when we went to Germany

Mentioned already our German friends and Colleagues in Garmisch – and also in Goettingen in earlier half year stays there.

e. Returning home – we chose to live again in North Staffordshire -welcomed back by friends and acquaintances.

f. Pat found herself doing remarkable things

driving Newcastle Community transport bus.

Reading for the Stoke Talking Newspaper for the Blind with Richard Orrell who gives her lifts home.

Attending the Uni Wives lunches (non PC) with Jane Andreas, Mary Cohen, Georgina Pritchard, Wendy Harrison and Julienne Tough

Attending the U3A Bookclub with Sheila Morgan

g. Found myself meeting with a group of Grumpy Old "Men", David Morgan, John Rogers, Derek Laine and Robert Smith, until Margaret Bird joined our Monday lunches

h. Invited to join the Inquirers and, with the able leadership of Alan Treherne, Rick Marshall and Misbah Deen, we struggle through aspects of modern science such Quantum Loop Gravity, the Mathematical Continuum and Predictive Processing.

i. Probus is a welcome change from Keele and we are happy to welcome John and Rosalind Hartley – the rest are on holiday!

j. A grand sink for both our time and our money is our enthusiasm for opera with regular excursions to Munich, to the Lowry and the RNCM with Susan Gomme and Tony Johns and to Buxton with Ian Clarkson and Richard Morris

All these and more contribute to the happiness of our lives and our marriage. Without you all it would not be possible.

At my Golden Wedding I was reprimanded for saying that everything was built upon our Good Fortune (People make their own luck). But you need good luck – particularly good health, both ours and the children. And we have lived through some cheerful times – no European wars since we were children, good health service, all the benefits of modern physics and chemistry and enough public money for well supported Social Institutions.

What of the Future – no talk of climate change or Brexit! Just three points. The majority here are now in the era of three things

" I live in a Bungalow"

"I don't buy green banana" Maggie Smith, Best Marigold Hotel

"Our reputation for longevity is based on hard work, simple food, lack of stress and the inability to count correctly" Sidney Harris

Propelled by the infectious smile which has pursued me for the past 60 years – I can look forwards to the future very positively.

Thanks you all once again.

## *The Diamond Wedding Quiz*

*Based on the pictures*

1. Which is the road in Birmingham (1955)? A. Colmore Row; B. New Street; C. Corporation Street	
2. Where are we at the greatest height? A. Emerald Basin (2007); B. Lago di Braies (1958); C. David's Hutte (2005)
